Description

Please describe details of the proposed development or works including any change of use

I would like to re-open a shop. The proposed site is a former post office with 2 floors (30 square meters each). Upstairs already has class E planning permission but the downstairs (sorting office) has 'Sui Generis' according to Bradley Sargeson (Barnsley planning officer). I would like to apply for full planning to open it as a 2 floor toy shop. I have been advised to go for full planning to make it easier. Any changes within the post office are purely cosmetic. There is no building work or property alterations to be taken place. An existing staircase leading downstairs along with security doors at front of shop. If you need proof it was a former Post Office I have lots of documentation from the house deeds

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

[Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.](#)

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

[You can use our partner's free online tool to determine if you are exempt and to produce detailed reasons](#)

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:

Sorry but I have zero idea of what this is. Nothing is being touched or destroyed as its a dis-used post office

Note: Please read the help text for further information why developments may be exempt or not in scope.
