Planning Advice Note: Hot Food Takeaway

3. **Location where there are high levels of obesity**

   In assessing applications for an A5 use, consideration will be given to levels of excess weight of 10-11 year old pupils. The NPPF states that "planning decisions should aim to achieve healthy, inclusive and safe places which: enable and support healthy lifestyles" Proposals for hot food takeaways within a ward where more than 32% of 10-11 year old pupils are classed as having excess weight are therefore more likely to be in conflict with this part of the NPPF.

4. **Health Impact Assessment**

   Applications for A5 uses will be required to include a Health Impact Assessment. (HIA). The HIA will be taken into consideration during assessment of the application.

7. Annex – Health Impact Assessment

Barnsley Hot Food Takeaways

Health Impact Assessment checklist - guidance for planners

This HIA checklist is a practical approach used to judge the effects of the planning application on the health and wellbeing of different groups of people. The findings of the HIA checklist will inform recommendations as to how any positive health impacts of the planning application may be maximised and any negative impacts reduced.

How to use this checklist

Description of Impact – Think about what impact the proposal may have with regard to each of the themes listed. Give details of how the proposal will impact on each specific group or population.

Recommendations - Write recommendations in these columns detailing how positive impacts could be maximised and negative impacts minimised.

A5 uses will be required to use this health impact assessment checklist.

1. Will any population groups be adversely affected by this application? e.g. minority ethnic groups (including traveller communities, refugees & asylum seekers), people living with a disability, older people, children and young people, people living on low incomes.

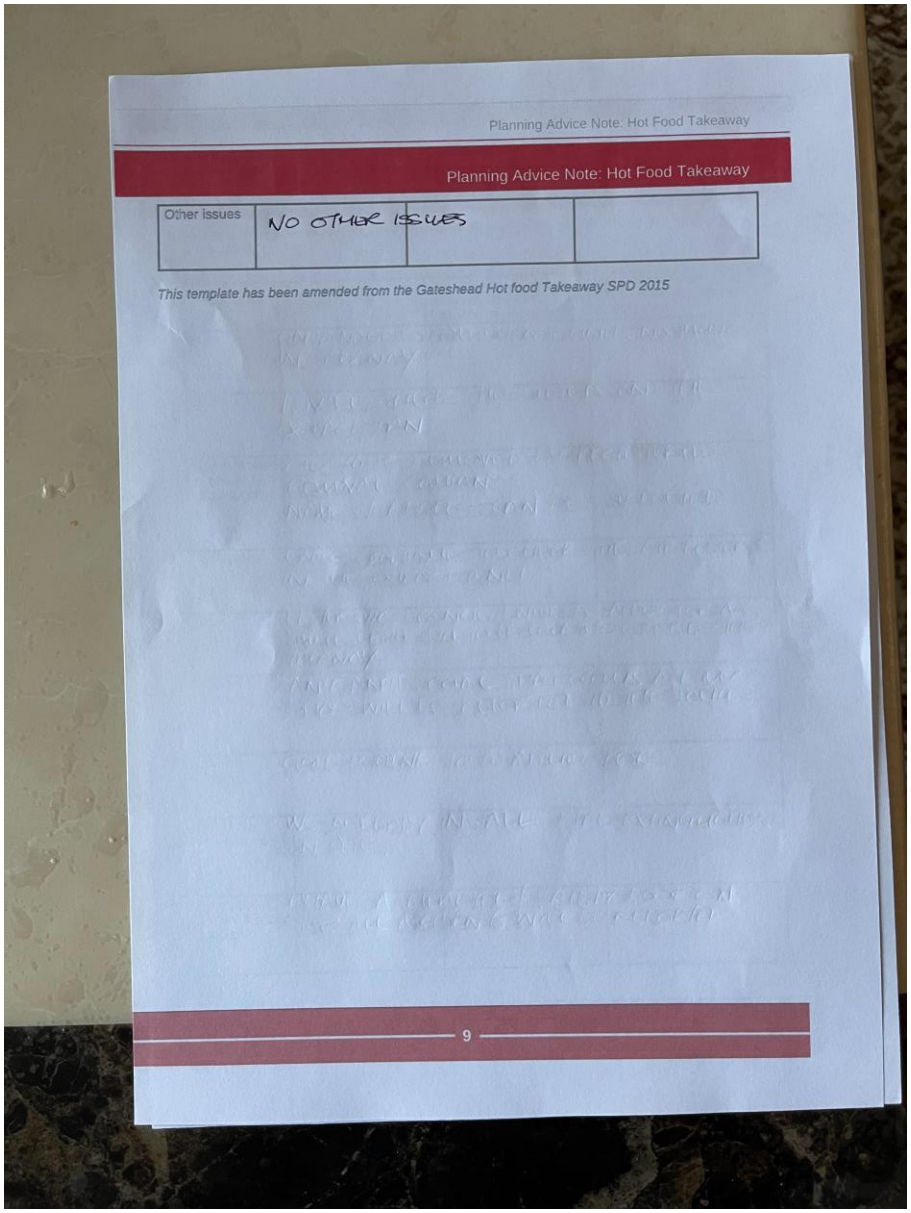

~~Yes~~/No – please state which groups and potential impact

Planning Advice Note: Hot Food Takeaway

2. What are the positive and negative impacts of the application, and how would they be mitigated or maximised?

Table 2

Issue	Describe any impacts	Recommendation – How will negative impacts be mitigated?	Recommendation – How will positive impacts be maximised?
