

Appendix 6.1

VP Survey Secondary Species Results (Keystone Ecology, 2012)

Values are maximum birds counted during a single 15 minute period on each date.

Breeding Season – Total 6 hours

Species	Status	Survey Date		Peak Count (Max flock count on single visit)
		31/07/2013	01/08/2013	Both Dates
Black-headed Gull	Amber	13	1	11
Linnet	EBL/UK BAP, Red	7	20	7
Lesser Black-backed Gull	Amber	3	2	1
Meadow Pipit	Amber	2	17	4
Swallow	Amber	166	416	65
Swift	Amber	-	1	1
Yellowhammer	EBL/UK BAP, Red	2	-	1

Status abbreviations:

EBL/UKBAP – England Biodiversity List/UK Biodiversity Action Plan Priority Species:

Red/Amber – Birds of Conservation Concern Status (Eaton et al., 2009)

Species	Status	Survey Date		Peak Count (Max flock count on single visit)
		05/11/2012	12/11/2012	Both Dates
Black-headed Gull	Amber	142	15	60
Common Gull	Amber	2	-	1
Fieldfare	S1, Red	-	3	2
Great Black-backed Gull	Amber	1	-	1
Grey Wagtail	Amber	1	-	1
Lesser Black-backed Gull	Amber	1	-	1
Meadow Pipit	Amber	1	1	1
Redwing	S1, Red	-	17	12
Skylark	EBL/UK BAP, Red	1	-	1
Starling	EBL/UK BAP, Red	5	44	18
Stock Dove	Amber	1	-	1

Appendix 6.2

Site Species List (all breeding season surveys combined)

Species	Location	Comments
Blackbird	On site	Regularly seen, possibly breeding
Black-headed Gull	Over site	Occasionally seen from VP
Blue Tit	On site	Occasionally seen, possibly breeding
Bullfinch	On site	Rarely seen, possibly breeding
Buzzard	On/Over site	Rarely seen, possible breeding
Carrion Crow	On site	Rarely seen, possibly breeding
Chaffinch	On site	Regularly seen, possibly breeding
Dunnock	On site	Rarely seen, possible breeding
Goldcrest	On site	Rarely seen, possibly breeding
Goldfinch	On site	Occasionally seen, possibly breeding
Green Woodpecker	On site	Rarely seen, possibly breeding
Jackdaw	On site	Regularly seen, possibly breeding
Jay	On site	Regularly seen, possibly breeding
Lapwing	On/Over site	Regularly seen from VP
Lesser black-backed Gull	Over site	Occasionally seen flying over site from VP
Linnet	On site	Regularly seen, probably breeding
Mallard	On site	Seen once from VP
Nuthatch	On site	Rarely seen, possibly breeding
Pied Wagtail	On site	Rarely seen, possibly breeding
Robin	On site	Regularly seen, possibly breeding
Rook	On/Over site	Regularly seen from VP
Skylark	On site	Rarely seen, possibly breeding
Song Thrush	On site	Seen once from VP, possibly breeding
Swallow	On/Over site	Very regularly seen over site, possibly breeding
Swift	Over site	Rarely seen over site
Whitethroat	On site	Rarely seen, possibly breeding
Willow Warbler	On site	Occasionally seen, possibly breeding
Woodpigeon	On/Over site	Regularly seen, possibly breeding
Wren	On site	Regularly heard/seen, possibly breeding
Yellowhammer	On site	Occasionally seen, possibly breeding

Site Species List (all non breeding season surveys combined)

Species	Location	Comments
Blackbird	On site	Rarely seen during VP surveys
Black-headed Gull	Over site	Regularly seen from VP
Carrion Crow	On/Over site	Regularly seen from VP
Chaffinch	On site	Occasionally seen
Fieldfare	Over site	Rarely seen from VP
Golden Plover	Adjacent Land	10-12 present on edge of 500 metre buffer to the north and on adjacent land
Great Black-backed Gull	Over site	Seen once over site
Grey Wagtail	Over site	Seen once over site
Herring Gull	Over site	Seen on two occasions over site
Jackdaw	On/Over site	Regularly seen from VP
Kestrel	Over site	Rarely seen from VP
Lapwing	Over site	Occasionally seen from VP. 600-700 present on edge of 500 metre buffer to the north and on adjacent land
Lesser Black-backed Gull	Over site	Seen once from VP
Magpie	Over site	Regularly seen from VP
Mallard	On/Over site	Occasionally seen from VP. Group of 10 flushed during Field Count
Meadow Pipit	On site	Occasionally seen from VP
Pied Wagtail	Over site	Occasionally seen from VP
Redwing	Over site	Occasionally seen flying over site from VP
Rook	On/Over site	Regularly seen from VP
Skylark	Over site	Seen once from VP
Starling	Over site	Regularly seen from VP
Stock Dove	Over site	Seen once from VP
Woodpigeon	Over site	Regularly seen from VP
