Dear Sir / Madam,

Re: BT PLC DSLAM CABINETS

BT PLC is in the process of undertaking a project to replace copper and improve broadband speeds within the UK. The cabinets are required for next generation broadband access (NGA). The minor infrastructure associated with this improvement will vastly improve the communication network for the residents and other stakeholders located within the authority highlighted below.

I write to formally advise you that, on behalf of BT PLC, Wilkinson Helsby Projects are submitting a number of Prior Approval Applications to Barnsley MBC Planning Department. The vast majority of these minor cabinets are to be installed under permitted development however a number of cabinets are located in Article 1: (5) Land and thus require Prior Approval. The proposed equipment is set out below:

SINGLE BT TELECOMMUNICATION DSLAM CABINET (DIMENSIONS 1130mmx 1408mm high and 400mm).

Please find enclosed developers notices for the BT PLC Cabinets

Should you require any additional information please do not hesitate to call me on 0113 258 3565.

Yours faithfully,

COPY
