Access for these Padel Courts will be via an external entrance.

Mechanism for Review

Brief breakdown of what a review mechanism could entail: -

Purpose and Benefits:

Monitoring and Evaluation:

A review mechanism provides a system to monitor how parties implement their commitments and assess the effectiveness of a scheme or protocol.

Identification of Challenges:

It allows for the identification of specific challenges and solutions to implementation issues, both for individual parties and systemically.

Transparency and Accountability:

Review mechanisms promote transparency and accountability by ensuring that commitments are being met and that there are mechanisms for addressing non-compliance.

Incentives for Compliance:

By providing a system for monitoring and addressing non-compliance, review mechanisms can act as an incentive for parties to implement their commitments.

Adaptability:

Review mechanisms allow for the identification of systemic challenges and thus priorities for strategic actions, ensuring that the scheme or protocol remains relevant and effective.

Management Responsibilities

As there is a Health and Safety Report already in place for the whole Sports Club, this will be used for these new Padel Courts and will be made available on request.

Please note the use of these Padel courts will be not only be for members of this existing large Sports Facility but also will be open to non-members.
