Statement of Landscaping & Ecological Mitigation Measures

Introduction

This statement has been prepared in support of a planning application for a new industrial unit and offices with associated service yard and car parking. Condition 12 of Planning Approval reference; 2019/0691 states the following:-

Prior to the occupation of the units, a timetable for the Landscape Proposals and ecological mitigation measures set out on drawing number LL01 Rev D to be installed, shall be submitted to and approved in writing by the Local Planning Authority. The development shall be implemented in accordance with the approved details and retained throughout the life of the development.

Statement

With the submission of this report is an extract of the Construction Program with the dates over which the landscaping & ecological mitigation measures are to be implemented highlighted. As shown on this document the requirements of Condition 12 will be undertaken during the month of August over six days between the 12th August 2021 & the 19th August 2021. These works will also be in accordance with approved drawing LL01 Rev D & the information contained therein.
