4. Description of Proposed Works

Please describe the proposed works:

Demolition of existing front timber porch and replace with enlarged stone porch to be used as part utility. Existing timber garage door to be removed and singular access door to the garage added. The build up will be via traditional construction methods and contain a front door and accompanying window. The roof will be pitched and run through to meet the existing parapet roof slope. All materials used will be in-keeping with beech hill farm and the local Billingley vernacular. The garage currently isn't used as vehicular parking due to the internal measurements, the vast drive length of circa 17m provided more than adequate parking and is in keeping with local parking policy without the use of the garage.
