Date of Survey  
26<sup>th</sup> October 2019

Tree Survey Plan – 1:500

Do not scale from this drawing.

| Tree Number | Species     | Condition                     | Management                            |
|-------------|-------------|-------------------------------|---------------------------------------|
| T1          | Common Lime | Part of linear group of trees | Retain and protect during development |
| T2          | Common Lime | Part of linear group of trees | Retain and protect during development |
| T3          | Common Lime | Part of linear group of trees | Retain and protect during development |

|     |                |                               |                                       |
|-----|----------------|-------------------------------|---------------------------------------|
| T4  | Beech          | Part of linear group of trees | Retain and protect during development |
| T5  | Common Lime    | Part of linear group of trees | Retain and protect during development |
| T6  | Common Lime    | Part of linear group of trees | Retain and protect during development |
| T7  | Horse Chestnut |                               | Retain and protect during development |
| T8  | Copper Beech   |                               | Retain and protect during development |
| T9  | Silver Birch   |                               | Retain and protect during development |
| T10 | Common Lime    |                               | Retain and protect during development |

Notes:

No felling work needs to be carried out. If required for any reason, will be carried out to a standard of at least that specified in BS3998 – Recommendations for Tree Work.

Contractors will be qualified and experienced to an acceptable standard.

All tree numbers refer to those indicated on the Tree Survey Plan.

This report is of a preliminary nature. The trees were not climbed but were inspected from ground level. No soil or timber samples have been taken for analysis. This is an indicative representation of the trees present on site only.

Trees to be protected during construction work in accordance with BS5837: 2005 – Trees in Relation to Construction.
