Hi [REDACTED]
Good Afternoon,.

South Yorkshire Police welcome the very thorough and welcome comments and response with regard to Secured By Design elements within the Design and Access Statement.

Whilst Secured By Design is in general-welcomed by South Yorkshire Police, there are clearly elements with regard to a development of this magnitude that will place additional pressure on the Police during the various construction phases, particularly when the dwellings and additional elements such as schools, clinical provisions etc come to be populated.

Currently, the area in which the proposed development is intended to take place is mainly rural with little development and subsequently makes little or no demand on policing resources.

Assuming the development proceeds as planned, it will substantially add to the size and populus of the existing settlement in Barugh Green, and across greater Barnsley.

Therefore it is reasonable to assume that policing requirements will increase from the point at which development commences, due to the presence of valuable plant and machinery on site, which will be attractive to organised criminal gangs. These groups specialise in theft and disposal of such machinery, especially given the proximity of main arterial routes and the motorway network.

With this in mind South Yorkshire Police are exploring the possibility to request S106 contributions which will allow the police to mitigate some of the impact of the proposed development will have Upon policing and the management of community safety.

"SYP would welcome a meeting to explore the impact of this development on both existing and future infrastructure needs"

Kind Regards.
