All comments must be received by post on 23 November 2016.

Appendix 6 Additional Comments in Full

Comments
In principle the housing development is good, but more works are needed to ease congestion on Stairfoot roundabout.
Just worried about traffic down to Wombwell Lane and Stairfoot roundabout.
My only reservation is that at present the traffic is murder on the roundabout. I hope this will not add or cause a bigger problem.
Main concerns regarding this development are Stairfoot roundabout. I use this roundabout twice a day - approaching from Grange Lane and my return journey is from Wombwell Lane. The roundabout is gridlocked most evenings between 4:30pm and 5:30pm. What improvements will be made if this development goes ahead?
Pleased with the proposal of site.
From looking at the proposal, I believe they can only enhance the existing area.
Very good idea - go for it.
Think it will be good and make it look and feel a safer place to live.
The impact on Stairfoot roundabout will make it gridlocked at times. 230 dwellings all with possibly two or more vehicles plus visitors will have a big impact no matter what Roy Goddard thinks. Hunningley Lane Infant and Junior School have already had to install a portakabin classroom to accommodate the present amount of children. 230 dwellings with more children will have a big impact on school placements.
Stairfoot roundabout is bad enough. At busy times and most of the time it is a nightmare, it can only get worse. Housing development at Bleachcroft Way will spoil a lovely bit of countryside, not to mention all the wildlife and flowers and fruit trees. Once its gone, its gone forever. Money doesn't buy everything.
