Parking Statement

Project: Barnsley Hospital NHS Foundation Trust
Gawber Road, Barnsley
Women & Children Block

Job No: 3187

The Hospital have recently completed implantation of a new car parking strategy which included formation of the new Helensburgh Close Car Park and major junction improvements under a 278 agreement with the Barnsley Metropolitan Borough Council's Highways Department. Together with relining the existing site to increase the number of disabled parking spaces adjacent to the existing buildings and revised internal ambulance flow to reduce the amount of ambulances reversing via a new internal road all as shown on the enclosed plans.

The new Women and Children Block will cause the loss of 6 No. disabled parking bays and 15 No. standard bays. The proposed is to convert 12 standard bays into 8 disabled bays giving a net reduction in parking of 25 standard parking bays but an increase by 2 the disabled parking bays.
