BARNSLEY
Metropolitan Borough Council

GRANT OF PLANNING PERMISSION

TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO. 2011/0503

To Peter Thompson
Linwood
Barnsley Road
Dodworth
Barnsley
S75 3JR

DESCRIPTION Erection of 40 bed residential care home.
LOCATION Land at Foundry Street, Elsecar, Barnsley, S74 8EQ

Permission is granted for the proposals which were the subject of the Application and Plans registered by the Council on 06 May 2011 and described above.

The approval is subject on compliance with the following conditions:

1 The development hereby permitted shall be begun before the expiration of 5 years from the date of this permission.
Reason: In order to comply with the provision of Section 91 of the Town and Country Planning Act 1990.

2 The development hereby approved shall be carried out strictly in accordance with the plans and specifications received on the 21st April 2011 as approved unless prior written consent has been given by the Local Planning Authority to any variation.
Reason: In the interests of the visual amenities of the locality and in accordance with UDP Policy BE6, Design Standards.

Stephen Moralee

The grant of this consent does not constitute or imply permission, approval or consent by the Local Authority for any other purpose.

Signed
Assistant Director, Planning and Transportation

Dated 07 July 2011

3 Prior to commencement of development an investigation and risk assessment to assess the nature and extent of any contamination on the site shall be submitted to and approved in writing by the Local Planning Authority. The investigation and risk assessment must be undertaken by competent persons and a written report of the findings must be produced. The report of the findings must include:
(i) a survey of the extent, scale and nature of contamination;
(ii) an assessment of the potential risks to:
o human health,
o property (existing or proposed) including buildings, crops, livestock, pets, woodland and service lines and pipes,
o adjoining land,
o groundwaters and surface waters,
o ecological systems,
o archeological sites and ancient monuments;
(iii) an appraisal of remedial options, and proposal of the preferred option(s).
This must be conducted in accordance with DEFRA and the Environment Agency's 'Model Procedures for the Management of Land Contamination, CLR 11'.
Reason: To ensure that risks from land contamination to the future users of the land and neighbouring land are minimised, together with those to controlled waters, property and ecological systems, and to ensure that the development can be carried out safely without unacceptable risks to workers, neighbours and other offsite receptors

4 No development shall take place until:

(a) Full foul and surface water drainage details, including a scheme for surface water run-off limitation and a programme of works for implementation, have been submitted to and approved in writing by the Local Planning Authority:

(b) Porosity tests are carried out in accordance with BRE 365, to demonstrate that the subsoil is suitable for soakaways;

(c) Calculations based on the results of these porosity tests to prove that adequate land area is available for the construction of the soakaways;

Thereafter no part of the development shall be occupied or brought into use until the approved scheme has been fully implemented. The scheme shall be retained throughout the life of the development, unless otherwise agreed in writing with the Local Planning Authority.
Reason: To ensure proper drainage of the area

5 No piped discharge of surface water from the application site shall take place until works to provide a satisfactory outfall for surface water have been completed in accordance with details to be submitted to and approved in writing by the Local Planning Authority before development commences.
Reason: To ensure that the site is properly drained and surface water is not discharged to any off site drainage system, which will prevent overloading.

6 Construction or remediation work comprising the use of plant, machinery or equipment, or deliveries of materials shall only take place between the hours of 0800 to 1800 Monday to Friday and 0900 to 1400 on Saturdays and at no time on Sundays or Bank Holidays.
Reason: In the interests of the amenities of local residents and in accordance with UDP Policy ES1, Pollution.

7 No development shall take place, including any works of demolition, until a Construction Method Statement has been submitted to, and approved in writing by, the Local Planning Authority. The approved Statement shall be adhered to throughout the construction period. The Statement shall provide for:
The parking of vehicles of site operatives and visitors
Means of access for construction traffic
Loading and unloading of plant and materials
Storage of plant and materials used in constructing the development
The erection and maintenance of security hoarding
Wheel washing facilities
Measures to control the emission of dust and dirt during construction
Measures to control noise levels during construction
A scheme for recycling/disposing of waste resulting from demolition and construction works
Reason: In the interests of highway safety, residential amenity and visual amenity.

8 The parking/manoeuvring facilities, indicated on the submitted plan, shall be surfaced in a solid bound permeable material (i.e. not loose chippings) and made available for the manoeuvring and parking of motor vehicles prior to the development being brought into use, and shall be retained for that sole purpose at all times.
Reason: In the interest of highway safety.

9 Development shall not commence before full highway engineering construction details have been submitted to and approved in writing by the Local Planning Authority.
Reason: In the interests of highway safety

10 Prior to the commencement of development or other operations being undertaken on site in connection with the development, the following documents prepared in accordance with BS5837 (Trees in Relation to Construction 2005: Recommendations) shall be submitted to and approved in writing by the Local Planning Authority:

Tree protection plan (TPP)
Tree protection fencing details
Arboricultural method statement (AMS)

No development or other operations shall take place except in complete accordance with the approved methodologies.
Reason: To ensure the continued well being of the trees in the interests of the amenity of the locality.

11 The erection of fencing for the protection of any retained tree shall be undertaken in accordance with the approved plans and particulars before any equipment, machinery or materials are brought on to the site for the purposes of the development, and shall be maintained until all equipment, machinery and surplus materials have been removed from the site. Nothing shall be stored or placed in any area fenced off in accordance with this condition and the ground levels within those areas shall not be altered, nor shall any excavation be made, without the written consent of the Local Planning Authority.
Reason: To safeguard existing trees, in the interest of visual amenity.

12 No development shall take place until there has been submitted to and approved in writing by the Local Planning Authority, full details of both hard and soft landscaping works, including details of the species, positions and planted heights of proposed trees and shrubs; together with details of the position and condition of any existing trees and hedgerows to be retained. The approved hard landscaping details shall be implemented prior to the occupation of the building(s).
Reason: In the interests of the visual amenities of the locality.

13 All planting, seeding or turfing comprised in the approved details of landscaping shall be carried out in the first planting and seeding seasons following the occupation of the buildings or the completion of the development, whichever is the sooner; and any trees or plants which die within a period of 5 years from the completion of the development, are removed, or become seriously damaged or diseased shall be replaced in the next planting season with other of similar size and species, unless the Local Planning Authority give written consent to any variation.
Reason: In the interests of the visual amenities of the locality.

14 No development shall take place until full details of the proposed external materials have been submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved details.
Reason: In the interests of the visual amenities of the locality and in accordance with UDP Policy BE6, Design Standards.

15 No development shall take place until there has been submitted to and approved in writing by the Local Planning Authority a plan indicating the position of boundary treatment to be erected. The boundary treatment shall be completed before the building is occupied. Development shall be carried out in accordance with the approved details and shall thereafter be retained.
Reason: In the interests of the visual amenities of the locality and the amenities of occupiers of adjoining property and in accordance with U.D.P. Policy BE6, Design Standards

16 The building shall achieve a BREEAM 'Very Good' Standard. Prior to the commencement of development details of how this will be achieved shall be submitted in writing for approval by the Local Planning Authority. The development shall be carried out in accordance with the approved details.
Reason: In the interest of sustainable development in accordance with Policy CSP2 'Sustainable Construction' of the submission version of the Core Strategy (as amended in the Inspectors report) .

17 At least 15% of the energy supply of the development shall be secured from decentralised and renewable or low-carbon energy sources (as described in the glossary of Planning Policy Statement: Planning and Climate Change (December 2007)). Details and a timetable of how this is to be achieved, including details of physical works on site, shall be submitted to and approved in writing by the Local Planning Authority prior to commencement of development. The approved details shall be implemented in accordance with the approved timetable and retained as operational thereafter, unless otherwise agreed in writing by the Local Planning Authority."
Reason: In the interest of sustainable development in accordance with Policy CSP5 'Including Renewable Energy in Developments' of the submission version of the Core Strategy (as amended in the Inspectors report)

Reason(s) for Granting Permission

1	Care Homes - Policy H5B	The proposal complies with Policy H5B in that it is compatible with adjoining uses and it is not considered that it will have any undue impact upon the amenity of nearby residential properties. The proposal represents an attractive development that would regenerate a longstanding brownfield site to the benefit of the local environment.

Informative(s)

1 The proposed development lies within an area which could be subject to current coal mining or hazards resulting from past coal mining. Such hazards may currently exist, be caused as a result of the proposed development, or occur at some time in the future. These hazards included:

- Collapse of shallow coal mine workings;
- Collapse of, or risk of entry into, mine entries (shafts and adits);
- Gas emissions from coal mines including methane and carbon dioxide;
- Spontaneous combustion or ignition of coal which may lead to underground heatings and production of carbon monoxide;
- Transmission of gases into adjacent properties from underground sources through ground fractures;
- Coal mining subsidence
- Water emissions from coal mine workings.

Applicants must take account of these hazards which could affect stability, health & safety, or cause adverse environmental impacts during the carrying out their proposals and must seek specialist advice where required. Additional hazards or stability issues may arise from development on or adjacent to restored opencast sites or quarries and former colliery spoil tips.

Failure to obtain Coal Authority permission for such activities is trespass, with the potential for court action. In the interests of public safety the Coal Authority is concerned that risks specific to the nature of coal and coal mine workings are identified and mitigated.

The above advice applies to the site of your proposal and the surrounding vicinity. You must obtain property specific summary information on any past, current and proposed surface and underground coal mining activity and other ground stability information in order to make an assessment of the risks. This can be obtained from The Coal Authority's Property Search Service on 0845 762 6848 or at www.groundstability.com

2 The decision to grant planning permission has been taken having regard to the policies and proposals in the Barnsley Unitary Development Plan and emerging Core Strategy set out below and to all relevant material considerations, including Supplementary Planning Guidance:

UDP

BE6: Design Standards
H5: Housing for special needs
H5B: Residential Homes
GS22, 22A, 22B Woodland Hedgerows & Trees
T2: Development and the Highway Network

National Planning Policy

PPS1 'Delivering Sustainable Development'
PPS3 'Housing'

Core Strategy

CSP2 - Sustainable Construction
CSP3 - Sustainable Drainage Systems
CSP4 - Flood Risk
CSP5 - Including Renewable Energy in Developments
CSP29 - Design
CSP26 - New development and highway improvement

This informative is only intended as a summary of the reason for granting planning permission. For further details on the decision please refer to the application file, by contacting 01226 772593.

NOTES:-

Appeals to the Secretary of State

If you are aggrieved by the decision of the Council to grant permission for the proposed development subject to conditions then you can appeal to the Secretary of State for the Environment, Transport and Regions under Section 78 of the Town and Country Planning Act. If you want to appeal, then you must do so within six months of the date of this notice, using a form which you can get from The Planning Inspectorate, Room 3/24 Hawk Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions it imposed, having regard to the statutory requirements, to the provisions of the development order and to any directions giving under the order. In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based its decision on a direction given by him.

Purchase Notices

If either the Local Planning Authority or the Secretary of State for the Environment, Transport and Regions refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of part VI of the Town and Country Planning Act 1990.

Compensation

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference to the application to him. These circumstances are set out in Sections 114 and related provisions of the Town and Country Planning Act 1990.
