

Your local tree surgeons are on hand ...

3 July 2012

Mr Arthur Wood
2 Old Mill Cottage
Roughbitchworth Lane
Oxspring
S36 8YE

Dear Mr Wood

TREE REPORT

Please find enclosed your completed tree survey for the above property.

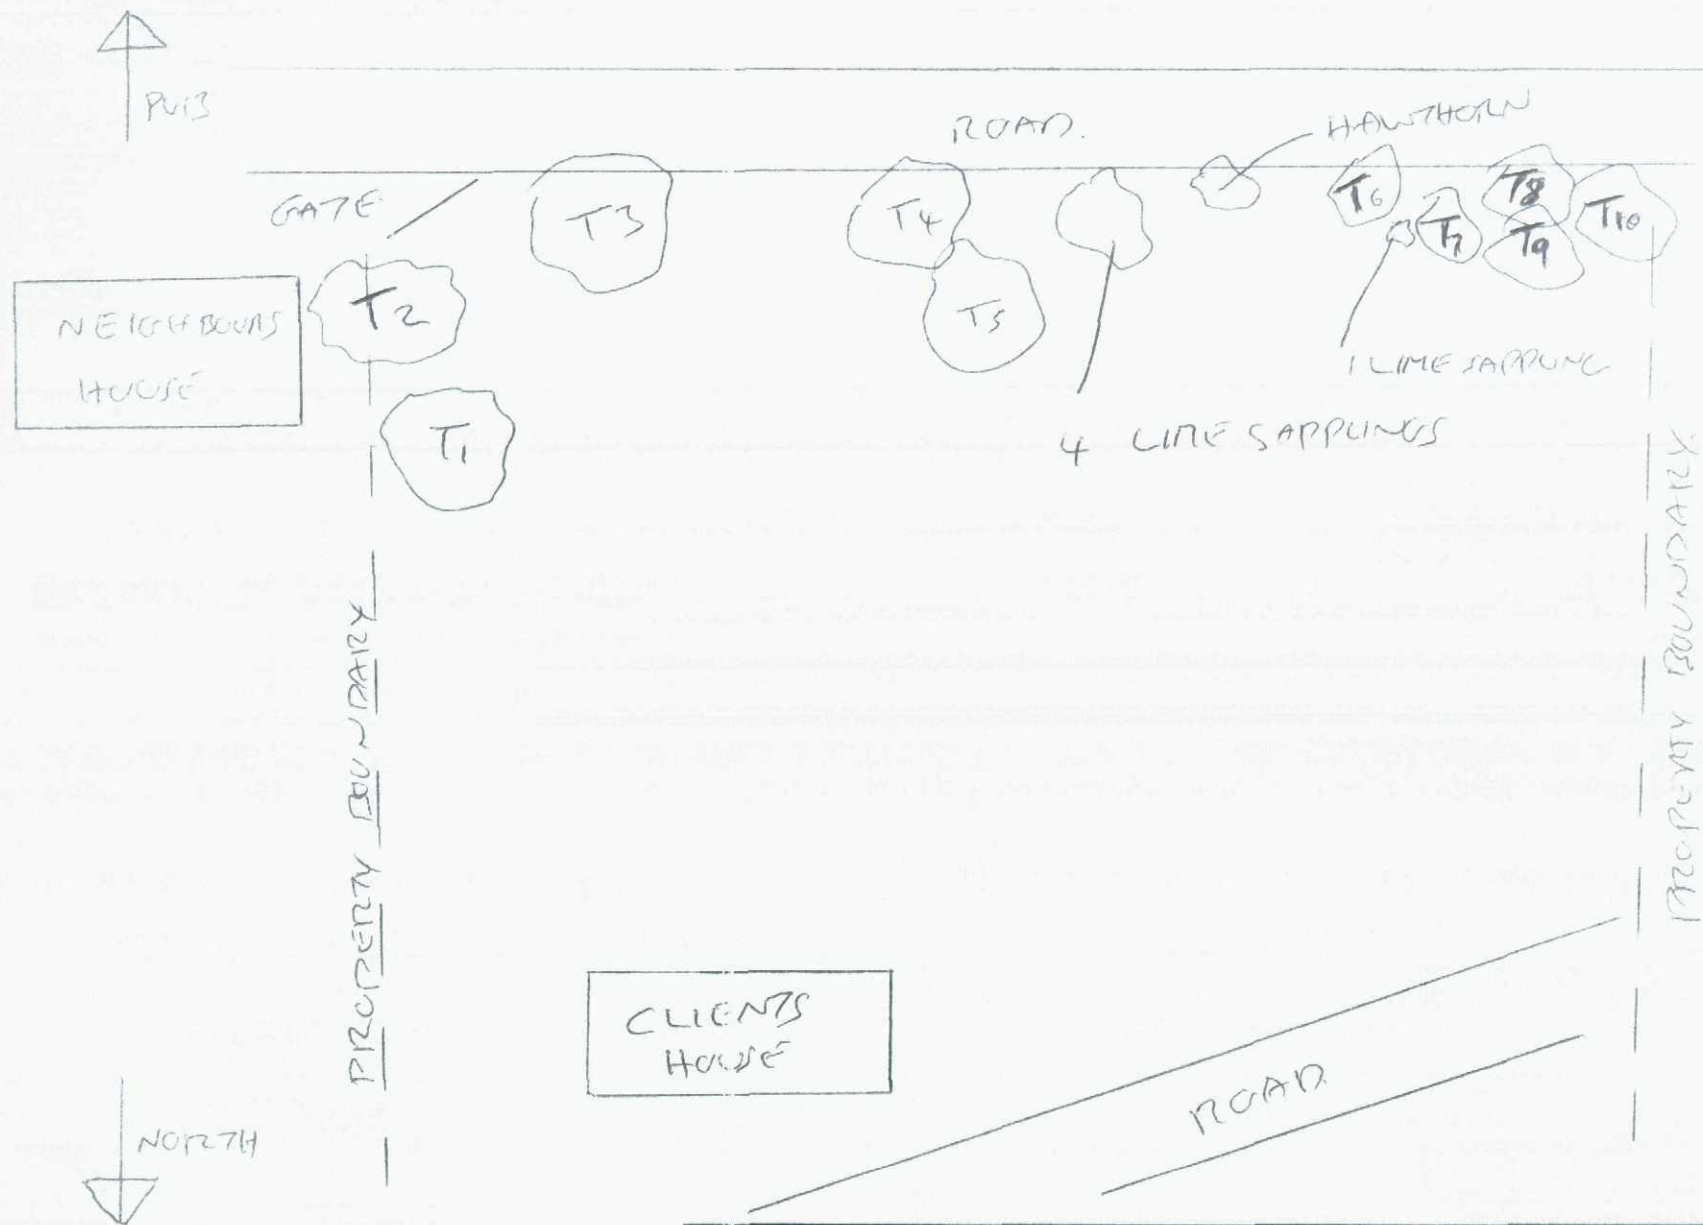

If you require the recommended tree work carrying out, then please do not hesitate to contact us for a current quote.

Please also find enclosed your invoice for your records. We acknowledge your payment by cheque.

Thank you for using our services.

Kind regards

Vincent Nolan

Address: 2 OLD MILL COTTAGE
OXSPRING S16 8YE.

Client: MR ARTHUR WOOD.

T8 - Sycamore

View from North East

View from North West

View from South East (back of pub)

Tree Ref T1 Location _____

Species LARURNUN

Height 5.5 (m) Trunk girth 90 (cm) Crown Spread 6 (m)

Roots

Kinked or girdling roots Y/(N) _____

Signs of wounding Y/(N) _____

Basal flare Y/(N) _____

Fungi present Y/(N) _____

Any other constraints/objects NONE.

Trunk

Splits or cracks Y/(N) _____

Twisting Y/(N) _____

Physical damage Y/(N) _____

Any fungi present Y/(N) _____

Any other signs of damage PREVIOUS PRUNING CUTS NOT FULLY HEALED, IMPROPER CUTS MADE.

Canopy

Overall shape and appearance SLOW GROWTH ON ONE SIDE

Deadwood (Y)/(N) SOME BRANCHES % 5

Epicormic growth present (Y)/(N) DUE TO PREVIOUS PRUNING

Hazardous branches Y/(N) _____

Healthy looking leaves (Y)/(N) _____

Evidence of infestation Y/(N) _____

Healthy looking fruit (Y)/(N) _____

Notes

Recommendations

REMOVE DEAD WOOD

CARRY OUT GROWN REDUCTION ESPECIALLY
ON OVERHANGING TO NEIGHBOURS

Risk Factor

2

1. Good Condition - monitor tree, no action required
2. Action Required - some basic work required
3. Hazardous Tree - work required see recommendations
4. Dangerous Tree - felling required

Tree Ref T2 Location _____

Species SYCAMORE

Height 17 (m) Trunk girth 170 (cm) Crown Spread 8 (m)

Roots

Kinked or girdling roots Y(N)

Signs of wounding Y(N)

Basal flare Y(N)

Fungi present Y(N)

Any other constraints/objects LOTS OF SHRUBS MAKING ACCESS TO TRUNK DIFFICULT

Trunk

Splits or cracks Y(N)

Twisting Y(N)

Physical damage Y(N)

Any fungi present Y(N)

Any other signs of damage NONE

Canopy

Overall shape and appearance LOLLY POP - WEIGHTED RIGHT SIDE

Deadwood (Y)N MINIMAL % 1

Epicormic growth present (Y)N

Hazardous branches (Y)N OVERHANG TO NEIGHBOURS

Healthy looking leaves (Y)N

Evidence of infestation Y(N)

Healthy looking fruit (Y)N

Notes

TELEPHONE LINE THROUGH TREE.

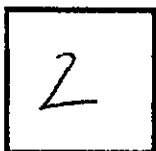

Recommendations

REMOVE 4 SAPPLINGS AT BASE OF TREE.

REMOVE DEAD WOOD AND DANGEROUS BRANCHES

BALANCE CANOPY.

REMOVE BRANCHES AROUND TELEPHONE LINE

Risk Factor

1. Good Condition - monitor tree, no action required
2. Action Required - some basic work required
3. Hazardous Tree - work required see recommendations
4. Dangerous Tree - felling required

Tree Ref T3 Location _____

Species SYCAMORE

Height 19 (m) Trunk girth 250 (cm) Crown Spread 12 (m)

Roots

Kinked or girdling roots Y/N

Signs of wounding Y/N

Basal flare Y/N

Fungi present Y/N

Any other constraints/objects NONE

Trunk

Splits or cracks Y/N

Twisting Y/N

Physical damage Y/N

Any fungi present Y/N

Any other signs of damage NONE

Canopy

Overall shape and appearance LARGE SPREAD EVENLY BALANCED

Deadwood (Y/N) MINIMAL % 1

Epicormic growth present Y/N

Hazardous branches (Y/N) OVER HANGING BRANCH

Healthy looking leaves (Y/N)

Evidence of infestation Y/N

Healthy looking fruit (Y/N)

Notes

SIGNS OF NESTING.

IVY AROUND TRUCK AND GROUND

Recommendations

REMOVE IVY FROM TRUCK.

30% CROWN REDUCTION

REMOVE BRANCHES OR WEIGHTY FRUIT BRANCHES

OVERHANGING ROAD

Risk Factor

2

1. Good Condition - monitor tree, no action required
2. Action Required - some basic work required
3. Hazardous Tree - work required see recommendations
4. Dangerous Tree - felling required

Tree Ref T4 Location _____

Species LINC

Height 17 (m) Truck girth 210 (cm) Crown Spread 8 (m)

Roots

Kinked or girdling roots Y ☒ N _____

Signs of wounding Y ☒ N _____

Basal flare Y ☒ N _____

Fungi present Y ☒ N _____

Any other constraints/objects NONE

Trunk

Splits or cracks Y ☒ N _____

Twisting Y ☒ N _____

Physical damage Y ☒ N _____

Any fungi present Y ☒ N _____

Any other signs of damage NONE

Canopy

Overall shape and appearance HEALTHY LOOKING, BALANCED

Deadwood Y ☒ N _____ % _____

Epicormic growth present Y ☒ N _____

Hazardous branches Y ☒ N _____

Healthy looking leaves ☒ Y ☐ N _____

Evidence of infestation Y ☒ N _____

Healthy looking fruit ☒ Y ☐ N _____

Notes

EVIDENCE OF BIRDS NESTING
IVY ON TRUNK

Recommendations

REMOVE IVY GROWTH UP TRUNK
REDUCE HEIGHT OF TREE 20%

Risk Factor

1. Good Condition - monitor tree, no action required
2. Action Required - some basic work required
3. Hazardous Tree - work required see recommendations
4. Dangerous Tree - felling required

Tree Ref TJ Location _____

Species SYCAMORE

Height 14 (m) Truck girth 100 (cm) Crown Spread 6 (m)

Roots

Kinked or girdling roots Y/N

Signs of wounding Y/N

Basal flare Y/N

Fungi present Y/N

Any other constraints/objects NONE

Trunk

Splits or cracks Y/N

Twisting Y/N

Physical damage Y/N

Any fungi present Y/N

Any other signs of damage NONE

Canopy

Overall shape and appearance LIGHT DEPRIVED, WEIGHTED ONE SIDE.

Deadwood (Y/N) MINIMAL % 2

Epicormic growth present (Y/N)

Hazardous branches Y(N)

Healthy looking leaves Y/N

Evidence of infestation Y(N)

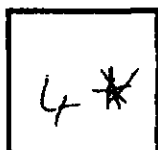

Healthy looking fruit (Y/N)

Notes

Recommendations

* NOT DANGEROUS BUT RECOMMEND FELLING
TO GIVE TREES EITHER SIDE SPACE TO GROW
REMOVE 4 LIME SAPPLINGS AND REMOVE
HAWTHORN BY ROAD

Risk Factor

1. Good Condition - monitor tree, no action required
2. Action Required - some basic work required
3. Hazardous Tree - work required see recommendations
4. Dangerous Tree - felling required

Tree Ref T 6 Location _____

Species SYCAMORE

Height 22 (m) Trunk girth 210 (cm) Crown Spread 10 (m)

Roots

Kinked or girdling roots Y/N _____

Signs of wounding Y/N _____

Basal flare Y/N _____

Fungi present Y/N _____

Any other constraints/objects NONE

Trunk

Splits or cracks Y/N _____

Twisting Y/N _____

Physical damage Y/N _____

Any fungi present Y/N _____

Any other signs of damage NONE

Canopy

Overall shape and appearance BIG SPREAD HEALTHY

Deadwood (Y)/N MINIMAL % 1-3

Epicormic growth present Y/N _____

Hazardous branches Y/N _____

Healthy looking leaves (Y)/N _____

Evidence of infestation Y/N _____

Healthy looking fruit (Y)/N _____

Notes

EVIDENCE OF NESTING

Recommendations

REDUCE IN HEIGHT, CROWN REDUCTION, 18 FT

LIME SAPPING AT BASE OF TREE REMOVE.

REMOVE DEAD WOOD

Risk Factor

2

1. Good Condition - monitor tree, no action required
2. Action Required - some basic work required
3. Hazardous Tree - work required see recommendations
4. Dangerous Tree - felling required

Tree Ref T7 Location _____

Species SYCAMORE

Height 21 (m) Truck girth 190 (cm) Crown Spread 8 (m)

Roots

Kinked or girdling roots Y/N

Signs of wounding Y/N

Basal flare Y/N

Fungi present Y/N

Any other constraints/objects None

Trunk

Splits or cracks Y/N

Twisting Y/N

Physical damage Y/N

Any fungi present Y/N

Any other signs of damage ROPE AND NAILS EMBEDDED

Canopy

Overall shape and appearance TALL AND THIN SPREAD

Deadwood (Y/N) MINIMAL % 2

Epicormic growth present Y/N

Hazardous branches Y/N

Healthy looking leaves (Y/N)

Evidence of infestation Y/N

Healthy looking fruit (Y/N)

Notes

Recommendations

REDUCE HEIGHT AND REMOVE DEAD WOOD

Risk Factor

1. Good Condition - monitor tree, no action required
2. Action Required - some basic work required
3. Hazardous Tree - work required see recommendations
4. Dangerous Tree - felling required

Tree Ref T 8 Location _____

Species SYCAMORE

Height 16 (m) Trunk girth 190 (cm) Crown Spread 5 (m)

Roots

Kinked or girdling roots Y/(N) _____

Signs of wounding Y/(N) _____

Basal flare Y/(N) _____

Fungi present Y/(N) _____

Any other constraints/objects NONE

Trunk

Splits or cracks Y/(N) _____

Twisting Y/(N) _____

Physical damage Y/(N) _____

Any fungi present Y/(N) _____

Any other signs of damage NONE

Canopy

Overall shape and appearance EVENLY BALANCED

Deadwood (Y)/(N) MINIMAL % 2

Epicormic growth present Y/(N) _____

Hazardous branches (Y)/(N) OVERHANGING BRANCH

Healthy looking leaves (Y)/(N) _____

Evidence of infestation Y/(N) _____

Healthy looking fruit (Y)/(N) _____

Notes

SLIGHT LEAN

Recommendations

REDUCE IN HEIGHT AND CROWN REDUCTION.

REMOVE BRANCHES OVERHANGING ROAD.

OR POSSIBLE FELL TREE DUE TO LEAN/HEIGHT RATIO

Risk Factor

2

1. Good Condition - monitor tree, no action required
2. Action Required - some basic work required
3. Hazardous Tree - work required see recommendations
4. Dangerous Tree - felling required

Tree Ref T9 Location _____

Species SYCAMORE

Height 17 (m) Trunk girth 150 (cm) Crown Spread 7 (m)

Roots

Kinked or girdling roots Y/N

Signs of wounding Y/N

Basal flare Y/N

Fungi present Y/N

Any other constraints/objects NONE

Trunk

Splits or cracks Y/N

Twisting Y/N

Physical damage Y/N

Any fungi present Y/N

Any other signs of damage NONE

Canopy

Overall shape and appearance HEALTHY, WELL BALANCED

Deadwood MINIMAL % 2-4

Epicormic growth present Y/N

Hazardous branches Y/N OVERHANGING ROAD

Healthy looking leaves Y/N

Evidence of infestation Y/N

Healthy looking fruit Y/N

Notes

Recommendations

CROWN REDUCE. REMOVE BRANCHES OVERHANGING
ROAD

Risk Factor

1. Good Condition - monitor tree, no action required
2. Action Required - some basic work required
3. Hazardous Tree - work required see recommendations
4. Dangerous Tree - felling required

Tree Ref T10 Location _____

Species SYCAMORE

Height 28 (m) Trunk girth 240 (cm) Crown Spread 10 (m)

Roots

Kinked or girdling roots Y/N N

Signs of wounding Y/N N

Basal flare Y/N N

Fungi present Y/N N

Any other constraints/objects NONE

Trunk

Splits or cracks Y/N N

Twisting Y/N N

Physical damage Y/N N

Any fungi present Y/N N

Any other signs of damage NONE

Canopy

Overall shape and appearance EVENLY BALANCED

Deadwood Y/N MINIMAL % 2

Epicormic growth present Y/N N

Hazardous branches Y/N LARGE OVERHANGING BRANCH

Healthy looking leaves Y/N N

Evidence of infestation Y/N N

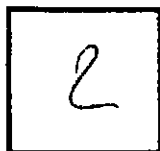

Healthy looking fruit Y/N N

Notes

Recommendations

REDUCE HEIGHT AND OVERHANGING
BRANCHES.

Risk Factor

1. Good Condition - monitor tree, no action required
2. Action Required - some basic work required
3. Hazardous Tree - work required see recommendations
4. Dangerous Tree - felling required
